

Easy Steps to Safely Get Rid of Unused Medicine

Why It Matters

Safe disposal of unused human and pet medicine protects people, pets, waterways, and the environment.

1 GATHER

Collect unused or expired medicine for people and pets.

2 FIND

Locate a drug drop box near you and prepare your items:

- Keep medication in original container if possible.
- Cross out your name and address — but leave the medicine name visible.
- Liquids must be in original bottle inside a plastic bag.

3 BRING

Take it to a permanent drug drop box in Sheboygan County.

4 PROTECT

Help keep children, pets, and our water safe.

Sharps and
Needles are **NOT**
